Commissioner for Patents

Sir:

In response to the Arguments/Remarks made in Amendment filed on October 22, 2007 in connection with the above-identified patent application, please see attached Notice of Non-Responsive Amendment.

12/03/2007

DETAILED ACTION

Response to Amendment

1. The reply filed on 22 October 2007 is not fully responsive to the prior Office Action because a request for a double patenting rejection to be held in abeyance until the remaining claim rejections are withdrawn does not constitute a complete reply to the Office action.

A request for a double patenting rejection to be held in abeyance until allowable subject matter is indicated is not appropriate because resolving a double patenting rejection is necessary in order to further prosecution of the above-named application and advancing it to final action. See 37 CFR 1.111(b).

Applicants are advised to either:

- file a terminal disclaimer as suggested in the prior Office action in compliance with 37 CFR 1.321(c); or
- traverse the rejection by presenting arguments pointing out why a nonstatutory obviousness-type double patenting rejection made in the prior Office action is improper.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
